Huynh Ngoc Son

SOFTWARE ENGINEERING INTERN

I am a senior Information Technology student with a solid background in HTML, CSS, JavaScript, ReactJs, and Java. I'm seeking an opportunity to not only apply my technical knowledge but also develop my teamwork and leadership abilities in a professional environment. In the next 1–2 years, my goal is to contribute meaningfully to the company's projects and growth. Over the next 5 years, I aim to develop into a Senior Developer, with the potential to transition into a Business Analyst role as I expand my skill set.
